(i) In computing these ratios contract employment serving the establishment is excluded. The cost of contract work in the iron ores industry for 1963 was 34.4 percent of payroll.

(*) Represents establishments with zero or negative value added; establishments with no employees; and for number of employees and payroll, figures for separately reported central offices and related facilities.

(i) Not shown since the cost of supplies, minerals received for preparation, fuels, purchased electric energy, contract work, and purchased machinery installed exceeded capital expenditures.

(i) Figures for undistributed are included with those for "less than 0.29".
